

## BMT Glass Storage System

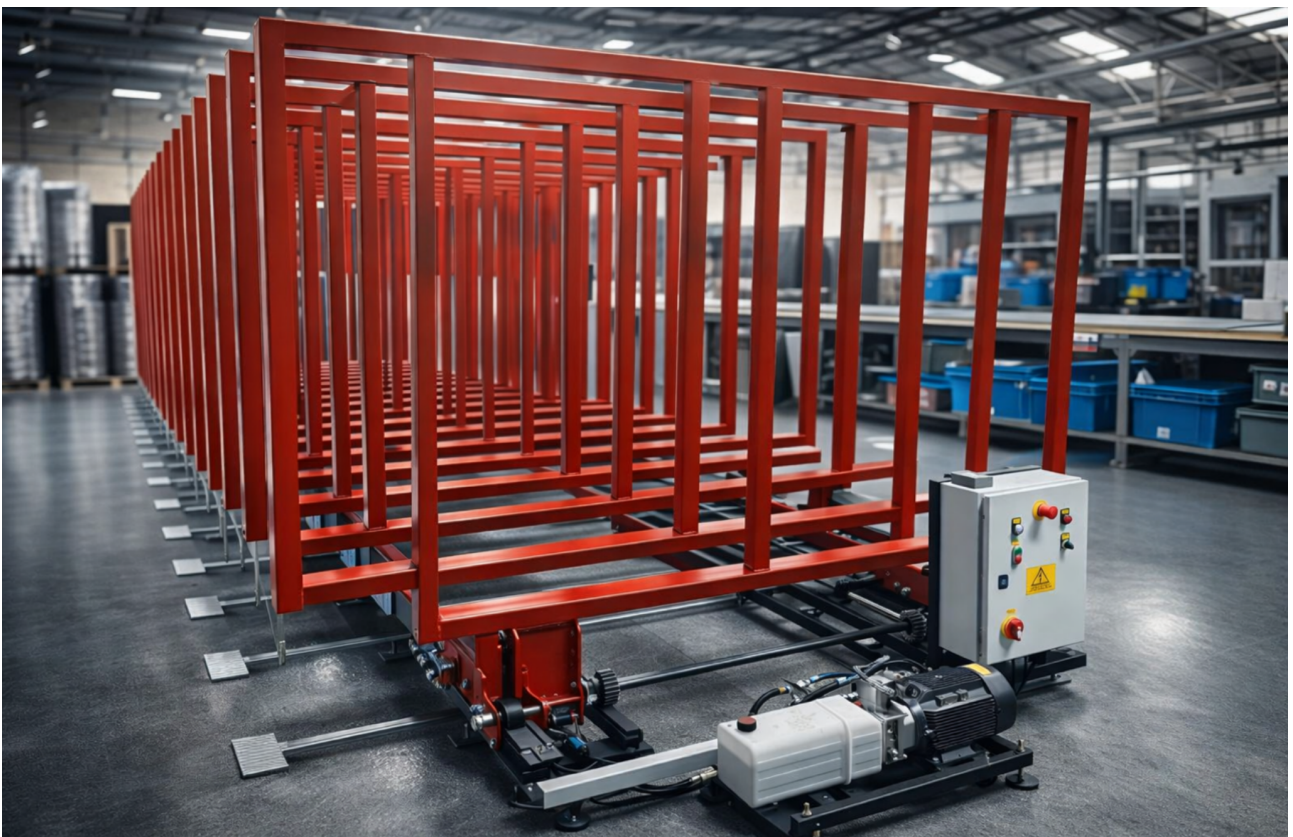

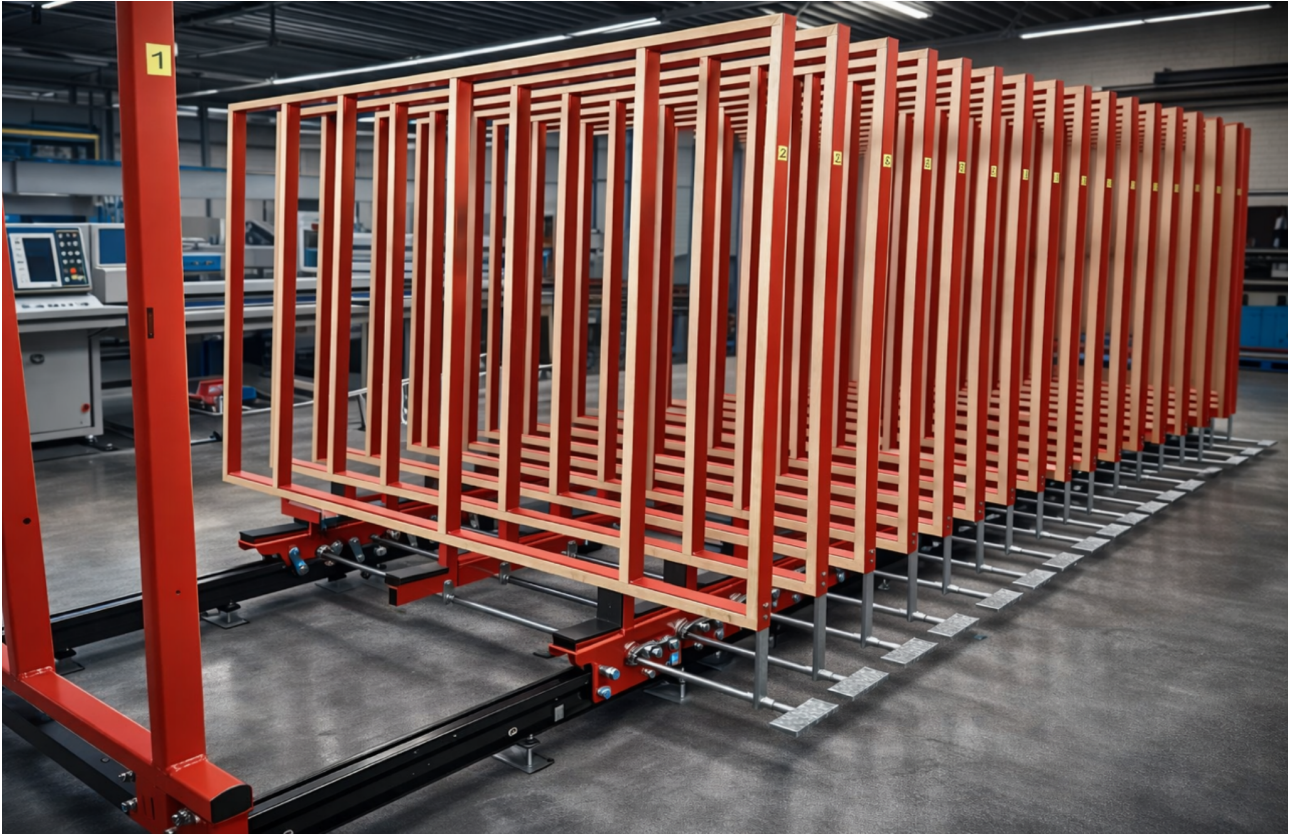

### Smart. Safe. Efficient Glass Storage.

The **BMT Glass Storage System** is a heavy-duty, hydraulically driven solution designed for the safe storage and efficient handling of large-format glass sheets. Engineered for modern glass processing environments, it combines robust construction, advanced safety features, and operator-friendly controls.

### Key Features

- Holds glass sheets up to **3210 mm x 2550 mm**
- Hydraulic transmission for smooth, controlled operation
- Multiple vertical storage compartments for organized handling
- Integrated light barrier safety guard
- Remote control operation
- Heavy-duty precision-engineered steel construction

## System Overview

## Benefits

- Reduced manual handling and glass breakage risk
- Improved operator safety
- Faster access to stored sheets
- Optimized production workflow
- Easy integration into automated glass processing lines

## Typical Applications

- Glass processing and fabrication plants
- Float, laminated, and tempered glass handling
- CNC cutting and loading lines
- Insulated Glass Unit (IGU) production
