

## BMT Free Fall Glass Racks

The **BMT Free Fall Rack** from Bassra Machine Tools Ltd is designed specifically to safely hold **half jumbo glass sheets** for efficient loading onto glass cutting tables. Built for durability, stability, and ease of operation, these racks are ideal for modern glass processing facilities.

### Key Features:

- Designed for half jumbo glass sheets
- Free fall loading design for smooth, controlled glass movement
- Heavy-duty steel construction for long service life
- Mobile base with industrial castors
- Stable A-frame design for maximum safety
- Suitable for loading directly onto glass cutting tables

### Applications:

- Float glass processing plants
- Laminated and toughened glass facilities
- Glass cutting and fabrication workshops
